

## **Lobby/Rally Defending Michael Gavan, Karen Reissmann and Fremantle workers**

**Tuesday, December 11, 2007  
7:00pm - 9:00pm**

**Committee Room 9  
House of Commons  
Parliament, Westminster, London**

The one thing connecting these 3 important disputes is privatisation /  
marketisation.

Karen was sacked for speaking out against marketisation of the health service.

Michael Gavan was sacked because of his trade union duties and because of the  
campaigning he was leading to stop privatisation in Newham.

The Fremantle workers have been outsourced from public services into a private  
company and had their hours extended and wages slashed as a result of  
privatisation.

The Public Services Not Private Profit campaign has called this lobby to highlight  
the disgusting treatment of these people and what happens to workers and  
services when they get outsourced.

Please invite all your friends and make this rally and lobby huge!
